# PERKI CARDIOVASCULAR EXPO 2024

## WELCOME MESSAGE

It is with great pride and enthusiasm that we celebrate 67 years of Indonesian Heart Association with groundbreaking innovations in cardiovascular care. Over nearly seven decades, the field has evolved from rudimentary treatments to sophisticated, life-saving interventions that have transformed the landscape of heart health. This journey has been marked by remarkable achievements, from the development of pioneering surgical techniques and life-supporting technologies to the advent of cutting-edge research that continues to push the boundaries of what is possible. Each milestone in this progression has brought us closer to a future where cardiovascular disease can be managed more effectively and lives can be extended and enriched.

**dr. Radityo Prakoso, Sp.JP(K)**  
**President of Indonesian Heart Association**

Today, as we stand on the shoulders of these remarkable advancements, it is my pleasure to present PERKI Cardiovascular Expo Symposium, which represents the next chapter in our ongoing quest for excellence. With the support of Indonesian Heart Association, this gathering of leading experts, clinicians, and researchers is a testament to our commitment to fostering collaboration and sharing knowledge. Through a series of enlightening discussions and presentations, we aim to explore the latest innovations and emerging trends in cardiovascular care. Join us in this celebration of progress and in our collective effort to advance the field of cardiovascular medicine.

## INFORMATION FOR AUTHORS

### GENERAL INFORMATION

- All abstracts must be written in the English Language.
- PICO 2024 welcomes abstracts in all areas applied with 2 categories: original research/ meta-analysis/systematic review, and case report/series.
- Abstracts of literature review and evidence-based case report (EBCR) are not accepted.
- The submitted abstract must fall into one of these categories:
  - Arrhythmia/Electrophysiology
  - Cardiac Prevention/Rehabilitation
  - ACS/Acute Cardiac Care
  - Echo/Imaging
  - Heart Failure/Pulmonary Hypertension
  - Vascular
  - Congenital Heart Disease
  - Hypertension, Diabetes, Metabolic Syndrome, etc.
  - Interventional Cardiology

**NB:**

- Presenting author whose abstract is accepted must be registered as a participant in the symposium of the PICO 2024.
- However, to be able to submit abstracts, you are only required to register on our website and make an account.
- Abstracts must be submitted using the online form on the PICO official website.
- Submissions via e-mail, paper, or fax will be rejected.
- All submitted abstracts will be graded by the scientific committee. Notification of abstract acceptance status for either a moderated or display poster session will be sent via email.

## ABSTRACT FORMAT & GUIDELINES

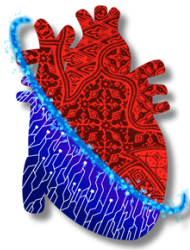

### Original Research, Meta-Analysis/Systematic Review

- The authors' names must adhere to the following format: first & last name written in full, middle name written as initials (e.g., James B. Brown) with affiliations.
- The abstract should not be exceeded 300 words (excluding the title, authors, and affiliations).
- The abstract of the original article should be presented in structured abstract as below:
  - Introduction: rationale for the study
  - Methods: a brief description of the study design and key methods
  - Results: succinct presentation of key results; please include sample size throughout
  - Conclusion: succinct statement of data interpretation
  - Keywords (no more than 5)

### Case Report/Case Series

- The authors' names must adhere to the following format: first & last name written in full, middle name written as initials (e.g., James B. Brown) with affiliations.
- The abstract should not exceed 300 words (excluding the title, authors, and affiliations).
- The case report/series should be presented in sections - namely:
  - Introduction
  - Case illustration
  - Conclusion
  - Keywords (no more than 5)
- Discussion is not required; however, if needed can be merged into the 'case illustration' section with the same word limit of 300.
